formed of the amount of the various competitors, and there you will perceive I am the lowest but one; and, at the time the tenders were opened, there was some little hesitation on the minds of the committee whether Mr. Hawtrey would engage in a work of such magnitude. Consequently, I was called in before the committee, when they inquired of me if I had ever built a workhouse; my reply was no. They again inquired if I was prepared to give security to the amount specified by the specification, or a further sum if necessary; my reply was yes. They then asked me if I had sufficient plant to carry out such a work; I answered in the affirmative. This ended the business of the day.

I was summoned the following day to name my securities for the increased amount, which I did, by two letters, written in the handwriting of gentlemen expressing their willingness to become security to the amount required.

I also inclosed a testimonial from an architect for whom I have executed work nearly to the amount of one hundred thousand pounds.

After all this the only reply I have is, that Messrs. Curtis's tender is accepted, the amount being 3,609*l.* more than mine.

I am, Sir, your most obedient,
JOHN GLENN.

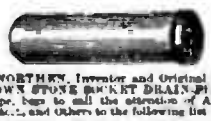
They are more durable, less expensive, and being nearly friction-less are opened and closed with perfect ease. They have been tested under various pressures, and have given the greatest satisfaction.—Manufactured only by the Patentees, THOMAS LAMBERT and SON, Brass and Cock Founders, 20, New Cut, Blackfriars-road.

SANITARY IMPROVEMENTS.
BUNNETT'S
PATENT SELF-ACTING EFFLUVIA TRAP
For Sewers and Drains of all kinds
Registered January 8th, 1848.

A cheap, durable, and most effectual means of preventing the escape of noxious vapours. It is entirely self-acting and self-cleansing, cannot get out of order, and may be readily applied in all situations without altering the present gradings.

The above is a most important improvement on all contrivances of the kind, and is manufactured in various sizes to suit all purposes, specimens of which may be seen, and also working models, at the office of Messrs. BUNNETT and COOPER, Engineers, 31, Lombard street, London; and at the works, Deptford, Kent.

UNION BROWN STONE POTTERY, CHEMICAL APPARATUS, and DRAIN-PIPE MANUFACTORY, 24, Vauxhall-walk, Lambeth. Patronised by Her Majesty's Commissioners of Woods and Forests, also by the Right Honorable and Honourable Commissioners of Sewers for Westminster.



WILLIAM NORTHEN, Inventor and Original Maker of Salt GLAZED BROWN STONE SOCKET DRAIN-PIPES, in every variety of shape, begs to call the attention of Architects, Surveyors, Contractors, and Others to the following list of prices:—

Straight Barrel Pipes, with Socket Joints, in 2-ft. Lengths.			
4-inch,	6-inch,	9-inch,	12-inch bore
6d.	8d.	1s. 1½d.	1s. 10d. per foot.

Bends and Junctions equally low.

N.B. Drain-pipes of my Manufacture may also be obtained of Messrs. CORBER, at their Lime Wharfs, Albion Wharf, Holland-street, Blackfriars; Millbank street, Westminster; Kingsland basin, Kingsland-road; and Limehouse, Limehouse.

JENNINGS'S PATENT INDIA-RUBBER TUBE COCKS can be had of any size, at prices not exceeding the terms now made for the Plain Cock.

Mr. JENNINGS'S PATENT JOINTS, WATER-CLOSET, and PATENT VALVES, a list of prices may be had by enclosing a stamp.

JENNINGS'S SHOP-SHUTTER BAR and FASTNER can be had in malleable iron, at 8s. 6d. per shutter sent to the trade. A list of best trades may be seen by applying at the manufactory, No. 36, Great Charlotte-street, Blackfriars-road.

TO ARCHITECTS AND BUILDERS, VISITING JUSTICES, BOARDS OF GUARDIANS, &c.

A MAY begs to call their attention to his improved DRYING CLOSET, by which Clothes can, at a very moderate expense, be dried in thirty minutes. He is prepared to give Plans and Estimates suitable for any size public Institution, or private Dwellings. In private Dwellings these Closets can be heated by the ordinary Kitchen fire.

Mr. A. M. has a superior arrangement for supplying Hot-water Baths, Wash-houses, Sinks, &c., which he can also recommend, by which he is enabled to avoid the general inconvenience of getting first a quantity of cold water from the hot-water pipes.

MANUFACTORY AT EAGLE-COURT, DEAN-STREET, HOLBORN.

UNDERHAY'S PATENT BALL VALVES, Manufactured by C. BUTTEN, Crawford-passage, Hay-street, Clerkenwell, where Drawings and Price Lists can be obtained. These valves can neither stick nor work hard; they keep open longer, and are cheaper than common cocks. The waterway, which in the latter averages one-third, in these is equal to that of the pipe. They act under every variety of pressure, and, when required for confined dimensions, the balls can be made smaller and the rods shorter than usual.

MR. STOP, and other COCKS, embracing improvements of equal importance, are made on the same principle.

Underhay's Patent Hollow Steel Valves are self-acting, cannot leak, and, besides being cheaper than the common ones, are more ornamental. Twenty thousand of the above valves have been sold within two years.

Mr. Butten begs to submit one of the many testimonials in our possession:—

London Works, near Birmingham.

Dear Sir,—We have used many of your patent ball valves, and find they answer their purpose exceedingly well, and are very certain in their action.—We are, yours obediently,
Mr. P. O. Underhay. FOX, HENDERSON, and Co.

Messrs. W. CURTIS and Co., of Grayston-lane, and Messrs. T. CURTIS and Co., Thames-bank (also many other eminent firms) who have used large quantities of them, will vouch for their being superior to any other articles applicable to the same purposes.

FLEXIBLE INDIA-RUBBER PIPES AND TUBING.
For Railway Companies, Brewers, Distillers, Fire Engines, Gas Companies, Gardening and Agricultural purposes, &c.

THE PATENT VULCANIZED INDIA-RUBBER HOSE-PIPES are made to stand hot liquor, and acids without injury—do not become hard or stiff in any temperature—but are always perfectly flexible; and as they require no application of oil or dressing, are particularly well adapted for locomotive engines, railway cranes, fire engines, pumps, gas, beer machines, carriers, and all purposes where a perfectly flexible pipe is required. Made all sizes, from ¼ inch bore upwards, and of any length to order. Vulcanized India rubber garden hose fitted with brass taps, copper branch and rose complete, ready to be attached to pumps, water butts, or cisterns. Sole manufacturer, JAMES LYNE HANCOCK, Goswell-mews, Goswell-road, London.

N.B. Vulcanized India-rubber washers of all sizes for joints of hot water and steam pipes, and vulcanized sheet rubber any thickness for all kinds of joints, and other purposes.

THE ARCHITECTS', CIVIL ENGINEERS', BUILDERS, and GENERAL FIRE and LIFE INSURANCE, ANNUITY, and REVERSIONARY INTEREST COMPANY.

NOTICE IS HEREBY GIVEN, that the Directors of this Company have made a FURTHER CALL of TEN SHILLINGS per share, on each and every share in this undertaking, and that the same is made payable on or before Tuesday, the 2nd day of May, next, at the Office, No. 31, Lombard-street, No. 6, Princes-street, Mansion-house, in the City of London, where receipts will be given for the same.

Interest at the rate of 5*l.* per cent. per annum will be charged on all sums remaining unpaid, in respect of this Call, after that date. Dated the 6th day of April, 1848.—By order of the Board of Directors.

Bonus.—Without the aid of a single advertisement, and that too, at a period of unparalleled commercial difficulty—viz., the close of the year 1847—31,250 shares, representing 250,000*l.*, or one-fourth of the intended capital of One Millions, were subscribed and paid for. A second series in a new letter issued, a considerable portion of which have already been taken. In the allotment of the remaining shares the preference will be given to the building interest and parties likely to benefit the Institution.

Prospectuses, forms of application, and every particular may be had at the Office, 69, Leonard-street.

JOHN REDDISH, Manager.

CLERICAL, MEDICAL, and GENERAL LIFE ASSURANCE SOCIETY.

EXTRACT OF THE DIRECTORS'

Presented at the Annual General Meeting, held at the Society's office, on Thursday, March 2nd, 1848.

Having, at the meeting held in January, 1847, presented to the Proprietors and Assured a very full account of the Society's affairs, your Directors have but little to communicate on the present occasion.

It may, however, be satisfactory to those now assembled to learn that, notwithstanding the increased and active competition arising from the yearly establishment of many new Life Assurance offices, the business of this Society still continues to advance.

In proof of this, it will be sufficient to state the following facts:—

I. In the number of policies granted on the lives of clergymen, a class of persons generally distinguished for longevity, has been greater during the year ending June 24th last the period comprehended in that report than in any one year since the commencement of the Society.

II. The Society's income, which was 146,89*l.* in the year ending June 24th, 1846, amounted to 178,89*l.* in the year ending June 24th, 1847.

III. The number of NEW POLICIES issued within the year has been 313, and the amount assured thereby 90,67*l.* Being an increase, both in the number of Policies and in the sum assured, over those of any preceding year.

In conclusion, the Directors are happy to inform the Proprietors, that the Society has not in any degree suffered from the great mortality which has prevailed of late throughout the kingdom, the claims both in the course of the year ending June 30, 1847, and also within the six months ending with December last, not having required either in number or amount those of preceding years.

Tables of Rates and Forms of Proposal can be obtained of any of the Society's Agents, or by addressing a letter to

GEO. K. FINCH AKD, Resident Secretary.

Office, No. 16, Great Russell street, Bloomsbury, London.

PATENT ARCHITECTURAL ROOFING TILES, for cover on Churches, Schools, Villas, Railway Stations, &c. &c.—As a economical and ornamental covering they are not only far superior to all other Tiles, but are portable to any Shrubs, and equally light. The colours in Blue, Red, and Buff, and they are made in patterns adapted to every style of Architecture, the cost scarcely exceeding that of the ordinary Pantiles.

Prospectus and full particulars upon application to the Secretary, at the Company's offices, No. 15a, Strand; or at the Depot, Essex Wharf.—Price 6*l.* 6*s.* per thousand, or from 14*s.* to 15*s.* per square, according to size and pattern.

PEAKE'S TERRO-METALLIC TILES, PIPES, &c., of at least 100 sorts and sizes. In addition to the number on purpose to which it is applied already, this Material may be moulded into a great variety of articles required either at home or abroad by the Nobility, Clergy, Gentry, Architects, Civil Engineers, and Builders; also by Dyers and Designers generally of Land, Mines, Railways, Buildings, Gardens, and other property. See advertisement, with figures, in "The Builder" of the 22nd, 29th, and 30th October and 13th November, 1847, also 1st January, 1848. Lists are ready, containing prices, both per number and also per square yard, per foot, &c. Applicants would oblige by stating if they want the prices in small quantities or London.—Address 4, Wharf, Macclesfield-street South, City-road Basin.

WORCESTER ENCAUSTIC TILE WORKS.—The Proprietors, who are retiring from Business, are enabled to offer their STOCK of TILES at a very reduced rate. Ornamental Pavements of the best description, at 2*s.* per square foot; "Seconds," at 1*s.* 6*d.* N.B. These Tiles were manufactured in exact imitation of the best ancient specimens, are more suitable for the restoration of ancient Churches and Buildings than any others of modern make; and the present opportunity affords Architects and others the means of adopting a very beautiful and durable material at a very moderate cost. Arrangements have been made for any future "matchings" that may be required.—Specimens may be seen in London, at Messrs. GREIVE and GRELLIER'S Marble Wharf, Bede-row road, Waterloo-bridge; and in the country, at the Works, Palace row, Worcester.

TO BRICK AND TILE MAKERS.

THE AINSLIE BRICK and TILE MACHINE COMPANY, James Smith, Esq., of Pennsylvania, Chairman, invite attention to their improved Brick and Tile Machines, which may be seen at work at Alperton, and at the Company's office, 18a, Piccadilly, from Ten a.m. to Five p.m. Mr. Robert Stevenson, who has been appointed manager in the room of Mr. John Ainslie, will shew the machines at the Works at Alperton, which are within a mile of the Harrow station of the London and North-Western Railway, and two miles of the Ealing station of the Great Western Railway; also at the Polytechnic Institution, Regent-street. All communications to be addressed to Mr. WILLIAM GORDON, Secretary, at the office of the Company, London, 18a, Piccadilly, March 1, 1848. These machines may also be seen at Mr. Stark's, Leith walk, Edinburgh; Mr. Robert Boyle's, Ayr; Mr. Lawrence Wilks, 30, Buchanan-street, Glasgow; Mr. Robert Charles, Mill-hill, Leeds; Messrs. Peary and Peach's, Pendridge, Radnorshire; Messrs. Drummond and Sons's, Dublin; and Mr. John Connor, Newton Limavady, County Derry.

MOSER and Co. respectfully inform the Nobility and Gentry, their Lease having expired, they intend REBUILDING TO PRESENT PREMISES NEXT DOOR, in consequence of which they are compelled to SELL at a GREAT REDUCTION on its original cost, a large portion of their IMMENSE STOCK, consisting of beautifully registered Marble Chimney Pieces, in the Louis XIV. and Elizabethan styles Bronzes, Candelabra, and Fire Dogs, of beautiful designs; Stoves of every description, allowed by competent judges to be the best and largest assemblage of the kind in England.—May now be viewed.—The business carried on precisely as usual.—No. 31 and 32, Frith-street, Soho-square.
